

In the Specification

Before the first paragraph please insert the following paragraph:

This application is a divisional of U.S. Patent Application Serial No. 09/946,113, filed September 4, 2001, herein incorporated by reference in its entirety.

Please rewrite the paragraph beginning on page 36, line 16 and ending on page 37, line 5 as follows:

The radiation efficiencies of ultrasonic vibration applied from the vibrator bodies of the cleaning nozzles according to the first and second examples and the first and second comparative examples were examined. FIG. 8 shows the results of the examinations. In order to examine the radiation efficiency of the ultrasonic vibration, as shown in FIG. 9, a beaker 86 having an opening at the bottom was placed on the side of the first and second openings 21b and 22b of the cleaning nozzle, was filled with pure water 87 supplied from the inlet 21a of the supply path 21. When the pure water 87 was discharged from the drain path 22, ultrasonic vibration was applied from the vibrator body 48 to the diaphragm 46. Furthermore, a sound pressure sensor (piezoelectric element) ~~89-90~~ connected to a sound pressure meter 88 was put in the pure water 87 filled in the beaker 86, and the sound pressure (mV) of ultrasonic waves radiated to the pure water 87 through the diaphragm 46 was measured.
